## CONCLUSION

"Every successful individual knows that his or her achievement depends on a community of persons working together."

To conclude, this year, we all took more collective steps towards our vision, and while one step was taken, many more are to go, and it is certainly achievable. Many changes have occurred, and as we all know, change often brings growing pains. The bottom line is that we have all grown through the process, and we will continue to move forward to make this School all that it can be!. It is rightly said "The secret of all great undertakings is hard work and self-reliance."

All the good work of the school has been possible with the co-operation of our highly qualified and dedicated faculty. If I were to put all the events in a Nutshell, we encourage a child to observe, to explore, to experiment, to probe, to analyze, to confront problems & find the solutions, Finally to develop the skills essential to face the future.

"Saying thank you is more than good manners, it is good spirituality."

I would like to conclude by extending our sincere thanks to all the parents and our well-wishers who have lent a supportive throughout the year, in all our endeavors to produce a confident, educated and capable batch of students each year.

"It is not joy that makes us grateful; it is gratitude that makes us joyful."

"Together We Can; We Will"

God Bless You
